

## Nursing Prerequisite Equivalency Guide

The School of Nursing created this equivalency guide to assist students in their prerequisite coursework planning. The following table shows the courses offered that meet our corresponding prerequisite requirements. It is important to remember this is only a guide. It is not necessarily an exhaustive list; other courses may fulfill these prerequisites. We strive to maintain current information; however course numbers and descriptions do change. Courses are officially evaluated as part of the application review process. For any particular course in question not listed below, please send a request for equivalency evaluation to [admissions@nursing.wisc.edu](mailto:admissions@nursing.wisc.edu).

Prerequisite	Course Options (most common)	Alternative Courses (to satisfy prerequisite)
<b>Chemistry (incl. lab)</b>	CHEM 121 Foundations of General Chemistry with Lab CHEM 103 General Chemistry 1 with Lab	CHEM 104 General Chemistry 2 with Lab CHEM 108 General Lab Chemistry for Health Professions (discontinued)
<b>Microbiology</b>	BIOD 171 Essential Lab Microbiology	
<b>Human Anatomy</b>	*BIOD 151 Essential Lab Human Anatomy & Physiology I	
<b>Human Physiology (incl. lab)</b>	*BIOD 152 Essential Lab Human Anatomy & Physiology II	
<b>Psychology (introductory)</b>	PSYC 101 General Psychology	
<b>Sociology (introductory)</b>	SOCI 180 Introduction to Sociology	
<b>Human Growth and Development</b>	PSYC 140 Developmental (Lifespan) Psychology	

\* When anatomy and physiology are taught as part of a two-course sequence (i.e., A&P I, A&P II), students must complete both courses at the same institution.
