

## Nursing Prerequisite Equivalency Guide

The School of Nursing created this equivalency guide to assist students in their prerequisite coursework planning. The following table shows the courses offered that meet our corresponding prerequisite requirements. It is important to remember this is only a guide. It is not necessarily an exhaustive list; other courses may fulfill these prerequisites. We strive to maintain current information; however course numbers and descriptions do change. Courses are officially evaluated as part of the application review process. For any particular course in question not listed below, please send a request for equivalency evaluation to [admissions@nursing.wisc.edu](mailto:admissions@nursing.wisc.edu).

<b>Prerequisite</b>	<b>Course Options (most common)</b>	<b>Alternative Courses (to satisfy prerequisite)</b>
<b>Chemistry (incl. lab)</b>	CHEM 120 General Chemistry I	CHEM 121 General Chemistry II
<b>Microbiology</b>	BIO 312 Microbiology	CHEM 321 Organic Chemistry I CHEM 340 Biochemistry BIO 402 Cell and Molecular Biology
<b>Human Anatomy</b>	*BIO 210 Anatomy & Physiology I <i>and</i> BIO 211 Anatomy and Physiology II	
<b>Human Physiology (incl. lab)</b>	*BIO 210 Anatomy & Physiology I <i>and</i> BIO 211 Anatomy and Physiology II	
<b>Psychology (introductory)</b>	PSY 101 General Psychology	
<b>Sociology (introductory)</b>	SOC 201 Introduction to Sociology	**ANTH 222 Intro to Cultural Anthropology PSY 349 Social Psychology **SOC 309 Race and Ethnicity SOC 322 Class, Social Change & Revolution
<b>Human Growth and Development</b>	PSY 345 Lifespan Development	PSY 210 Child Development PSY 220 Adolescent Development

\* When anatomy and physiology are taught as part of a two-course sequence (i.e., A&P I, A&P II), students must complete both courses at the same institution.

\*\*These courses satisfy the nursing sociology prerequisite and are predicted to satisfy UW-Madison's ethnic studies general education requirement.
